CLINIC OBJECTIVES

Who should attend?

The clinic is open to all public and private school six-man football coaches at all levels. Over 60 coaches attended our 2009 clinic.

If your school is considering adding six-man football to your athletic program, we recommend that you send your Athletic Director and/or prospective coaches.

What will be covered?

Group presentations will be given, covering topics on offense, defense, special teams and teaching effective blocking and tackling techniques.

Clinic faculty include well-respected and championship coaches from Texas public and private six-man football schools, and NCAA D-2 college coaches.

Three chalk talk sessions are scheduled. Clinic faculty will moderate the sessions and at least one session will be focused towards coaching the first year/start-up program.

Lunch, beverages and breaks will be included with your registration.

A limited number of vendor booths are available and door prizes will be awarded.
